

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

FREDERICKSBURG NATIONAL CEMETERY.

The Fredericksburg National Cemetery is situated about one mile west of the city of Fredericksburg, Virginia, on the southern extremity of a prominent bluff, known as Marye's Heights. The surface of the eastern portion of the cemetery is arranged in terraces, each containing one row of graves and following the natural slope of the original surface, including about one-fourth of the area of the cemetery. The remaining portion of the cemetery is nearly level, excepting the extreme southern part, which is broken by a ravine extending some two hundred feet into the cemetery from the southern line.

The cemetery is inclosed with a picket fence, and contains several hundred shade trees, most of which were set out in 1867 and 1868, and will, in a few years, afford a very comfortable shade and improve the present rather bare appearance of the cemetery.

The superintendent's lodge is situated on the right of the entrance, on the eastern side of the cemetery. The graves have been well sodded, the roads and walks graveled, and brick drains constructed in every section and on each side of every road. The remains of fifteen thousand and sixty-eight Union dead are interred in this cemetery, comprising two thousand four hundred and sixty-seven known officers and soldiers, and twelve thousand six hundred and one unknown. The graves are marked by plain white tablets, with inscriptions in black, showing the number of each grave, and the name, rank, and corps, if known. The bodies were collected from the battle-fields of the Wilderness, Spottsylvania, Chancellorsville, and Fredericksburg.

The operations on this cemetery were commenced in the summer of 1866, and were completed in the fall of 1869. The total expense of construction and interments are reported as about \$180,000.

A superintendent has been appointed by the Hon. Secretary of War, and is now in charge of the cemetery, under the directions of the chief quartermaster, first military district.

HAMPTON NATIONAL CEMETERY.

The Hampton National Cemetery is located about two and three-quarter miles from Fort Monroe, Virginia, in Elizabeth City County, Virginia, on main road leading from Fort Monroe to Hampton, Virginia. It comprises within its limits $11\frac{7}{10}$ acres of land, and is inclosed by a well-built picket fence.

The lodge of the superintendent is a neat building on the left side of main entrance, the right side being occupied by a frame church, erected by subscription during the war.

Gun monuments have been erected on each side of the flag-staff, and the center of the cemetery is graced by a chaste and beautiful granite monument, erected by private subscription under the direction of Miss Dorothea Dix.

The cemetery was located, and interments therein commenced, on the 27th of June, 1867, under direction of Brevet Colonel A. P. Blunt, assistant quartermaster United States Army, chief quartermaster first military district at the time. The completion of the cemetery has been directed and supervised by Brevet Lieutenant Colonel Henry W. Janes, captain and assistant quartermaster United States Army, who was placed in charge of the same on the 28th of March, 1868. On account of the sandy soil, much labor and expense have been incurred to provide the cemetery with good and substantial driveways, and over eleven thousand feet of brick gutters have been constructed.

The entire cost of the cemetery, including interments, will not fall short of \$60,000.

The cemetery is very attractive in appearance, and is visited by many strangers, as well as the residents of Fort Monroe and its vicinity.

The bodies of those interred in the cemetery were removed from Big Bethel, Newport News, Norfolk, Craney Island, Deep Creek, Jamestown, Suffolk, Smithfield, Portsmouth, Blackwater, and Cherrystone, Virginia, in addition to those who died in the hospitals established around Fort Monroe.

The drainage of this cemetery is being rapidly pushed forward, and it is expected that it will be completed by the close of the current year.

The number of known soldiers interred in this cemetery is four thousand six hundred and forty-two; the number of unknown soldiers interred in this cemetery is four hundred and seventy-nine; total number of bodies, known and unknown, five thousand one hundred and twenty-one.

A superintendent has been appointed, and is now in charge of the cemetery, under the directions of the depot quartermaster, Fort Monroe, Virginia.

M. C. MEIGS,
Quartermaster General, Brevet Major General U. S. A.

WAR DEPARTMENT,
QUARTERMASTER GENERAL'S OFFICE,
Washington, D. C., December 6, 1870.

GENERAL: I have the honor to transmit herewith, for publication, (as the twenty-sixth volume of the Roll of Honor,) the record of 13,411 graves of deceased Union soldiers interred in the national cemeteries at Mound City, Illinois; Cincinnati, Columbus, Gallipolis, Cleveland, Sandusky, and Dayton, Ohio; Little Rock, Fayetteville, and Fort Smith, Arkansas; Fort Leavenworth, Kansas; and Petersburg, Hampton, Winchester, Cold Harbor, and Culpeper Court House, Virginia.

These records of the graves in the cemeteries in Illinois and Ohio are corrections of the records heretofore published. The records of the graves in cemeteries in Arkansas, Kansas, and Virginia are additional to those heretofore published in Volumes XV, XVIII, XIX, and XXIV of this work.

Very respectfully, your obedient servant,

J. D. BINGHAM,
Quartermaster United States Army.

Brigadier General M. C. MEIGS,
Quartermaster General U. S. A., Washington, D. C.

BEAUFORT NATIONAL CEMETERY, BEAUFORT, S. C.

This National Cemetery is beautifully situated about three-quarters of a mile from the town of Beaufort, South Carolina, and one-half mile from Beaufort River. It contains thirty-one acres of land; the ground is high and little rolling.

The construction of this cemetery was commenced in 1863 and completed in 1868. The bodies interred therein are the remains of deceased Union soldiers and employés who were originally buried at the race course and at the potter's field cemetery at Charleston, South Carolina; at Port Royal, Saint Helena, Cave Island, Otter Island, Bray's Island, Paris Island, Henry Island, Morris Island, Edisto Island, Folly Island, James Island, Sullivan Island, and Beaufort Island and Hilton Head, South Carolina; points on the Savannah, Georgia, Railroad, Pocotaligo Bridge, Stony Creek, Mitchell's place, Elliot's farm, and Millen prison cemetery, Georgia.

The cemetery proper is laid out in the form of a half-circle, with graveled avenues diverging from the main entrance, and with graveled or grassed paths intersecting these avenues almost at right angles. It has also a shelled carriage-road running around the cemetery; and all of these roads have been properly graded and drained.

At the main entrance is a neat brick lodge, originally intended for the accommodation of the superintendent, but, owing to the unhealthy and malarious climate, it has become necessary to hire quarters outside for that purpose. The lodge is, therefore, used now as an office and to receive visitors. Five wells have been sunk, which furnish a full supply of water for visitors and for irrigation purposes.

The cemetery is inclosed with a picket fence, inside of which has been planted an Osage orange hedge, which is in a thriving condition. A flag-staff has been erected at the main entrance on a mound ten feet high and thirty feet in diameter at the base, from which flies, in fair weather, the national ensign. A large number of trees and shrubs have been planted, and grow well. Four cannon monuments have been erected; and everything will be done to ornament the cemetery, and to make it a suitable resting-place for the brave men who lie here. The land was purchased by the United States from the State of South Carolina, at a tax sale, for the sum of seventy-five dollars. The deed, dated February 10, 1863, was certified as valid by the Attorney General of the United States March 25, 1868.

The number of interments in this cemetery is as follows:

Number of known soldiers	4,857
Number of unknown soldiers	2,655

NATCHEZ NATIONAL CEMETERY,
NATCHEZ, MISSISSIPPI.

NATCHEZ, MISSISSIPPI, NATIONAL CEMETERY.

This National Cemetery, unsurpassed in beauty by any in the country, is situated on the east side of the "Upper River Road," about one and one-half miles north of the landing at Natchez, half a mile north of the United States Marine Hospital, and two hundred yards northwest of the city cemetery. It is about one-fourth of a mile from the Mississippi River, and a hundred yards from the edge of a high bluff. The highest part of the cemetery overlooks the Mississippi in both directions. It is an irregular four-sided tract of land, containing 11.70 acres. The total length of the boundary lines is 2,667 feet.

The construction of this cemetery was not commenced till 1866, and it is being completed now, in 1871. The bodies interred therein are the remains of deceased Union soldiers, which have been brought from their original burial places at Natchez, Port Gibson, and Prio's race-track, Mississippi; and Vidalia, Concordia Parish, Waterproof, Cross Bayou Ferry, Red River Landing, and Turnbull's Island, Louisiana, and at various places opposite the mouth of Red River.

The cemetery proper is laid out in curves and irregular figures, divided by avenues and drives, and intersected by paths and walks, all of which are properly graded and drained; most of them have been planted with grass, while a few are graveled.

Inside the present picket fence a pyracanthas hedge has been planted, which is thriving well. A contract has been awarded for the building of a substantial brick wall to take the place of the picket fence. At the main entrance a neat and substantial brick lodge has been built for the accommodation of the superintendent. A pump furnishes a full supply of water for the lodge, visitors, and for irrigating purposes. In the center of the cemetery, on a large grassed mound, a flag-staff, flying the national colors, has been erected. A large number of trees and many-colored and sweet-scented plants and shrubs have been set out, and are in a good condition. Three cannon monuments add to the ornamentation of the grounds.

The land was purchased by the United States from private parties at a cost of \$1,800, or \$153.85 per acre, and is held by a fee-simple title.

The number of interments of Union soldiers in this cemetery is as follows:

Number of known	302
